C/PPS

Transmittal, Near East Division Support Handbook

1. Forwarded herewith for your information and possible training use are 11 copies of the "Near East Division Support Handbook," provided to OTR through the NE Division Training Officer.

2. This handbook may be of use to you for information and reference, possibly in connection with JOT training in the OC and OPMC. It was referred to [REDACTED] in the Operations Support Course. She has not found it useful for any specific training purposes because it is very general and offers little guidance in detailed procedures. Obviously, too, it is subject to frequent changes in policies, organization, and internal procedures. 25X1A
